Long Unique History

We'll introduce about our school history. It's very long.

Then , I will introduce two big things about our school. Our school has merged twice so far.

First, in 1969, elementary schools from four towns were integrated.

Second, in 2014, junior high school and elementary school merged.

Now, this school is an only compulsory education school in Kyoto. It's unique.

~Very Nice Graduate~

By the way, do you know Nakagawa Kojuro? He was from Kawahigashi, our hometown. So, he went to the old school, Chienkan. Next, we will introduce him.

First, he set up a lot of schools as an official. For example, Kyoto University and many girl's universities. Especially, girl's education was important for him.

Second , he set up Ritsumeikan University because he wanted people to study more. It's famous in Japan.

He has been a famous person for education and his achievements have made our lives better.
